

# MOTOROLA Two-Way Radios are designed with the needs of the construction industry in mind

## Motorola RDX™ On-Site Business Two-Way Radios

Motorola's powerful RDX Series provides businesses a competitive communications edge, enhancing employee efficiency and overall profitability. Affordable, durable and easy to use, the RDX Series helps keep operations on schedule and maximize job shift productivity. Performance you can count on with no monthly contracts and no service charges.

### ALL MODELS FEATURE:

**Exceptional Audio Quality** - The RDX Series features up to 2000 mW of audio output, speaker magnetic field reduction, wind-noise reduction and improved RF specifications all which help deliver superior audio quality. **Superior Durability** - Meets Military 810 C,D,E and F and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand/dust, temperature shock, high and low temperature. Featuring a metal diecast chassis, the RDX Series will hold up under demanding conditions. **Long Battery Life** - Standard Li-Ion battery for up to 12 hrs per charge, a Ultra high capacity Li-Ion battery for up to 26 hrs per charge, and an optional alkaline battery kit. **Business Exclusive Frequencies** - Operating on 89 UHF or 27 VHF business exclusive frequencies (varies by model) and featuring 122 codes to help ensure a clear signal. **Customer Programming Software** - Quickly identify radio details such as serial number, features, frequency range and more (separate USB cable required). **Additional Features Include** - Scan, manager lock, cloning capability, power select, and more. **Compatibility** - The RDX Series is compatible with the Motorola XTN Series, AX Series, CLS Series and other radios operating on the same frequencies and code.

### MODEL SPECIFIC FEATURES.

The chart below indicates model specific features, such as:

**Repeater Capability.** Need extended range? Select RDX Series models are compatible with duplex repeaters which help provide a much greater coverage area than would be possible communicating in radio to radio mode.

**Additional Channels.** At the touch of a button, workers or supervisors can change channels to talk with different work groups. Models available with 2, 8, 10 or 16 channels.

**Channel Aliasing.** Channel aliasing provides the ability to give each channel a user defined name.

**Front Panel Programmability.** Five programmable buttons give you quick access to features such as priority scan, power select, and keypad lock.

\*All Radios include a Li-Ion rechargeable battery, drop in charging tray with power adapter, 3" spring belt clip, users guide and warranty card.
