

Steel Measuring Tapes

Lufkin Engineering and Surveying Tapes and Reels

Designed especially for precise measuring such as route surveys and railways, mining and surveying work. Heavy gauge steel 1/4" wide in chrome clad or yellow with an epoxy coating. Zero at end of tape, each tape has a ring end with one spare ring, and a temperature correction scale. Complete with an all metal reel.

KESON Perma-Clad Nylon Coated Steel Tape Measures

Keson nylon-coated steel tapes meet the highest standard of accuracy for survey quality measurements. They bend easily around curved surfaces and are lightweight even in 300ft. lengths. Resist breakage and damage under the toughest field conditions. These tapes are constructed with a double layered .2mm nylon, permanently bonded over a center core of 13mm steel. Multi-layer construction assures corrosion resistance (even to salt water) and provides at least three times the usual tape life. Available with "HOOK" end or "RING" end.

- Shovel Handle for Comfortable Rapid Reeling
- Ground Stake for Accurate Measurement
- Metal Reinforced, Polycarbonate Crank Handle for Durability
- Less Wind Drift and Improved Durability
- Zero Point at End of Hook (H)
- Zero Point at tape end + one (1) foot—Ring End (E)

NOTE Reel on 300' is made of stainless steel, not a polycarbonate.

KESON Ultra — Glass Fiberglass, Dual Sided, 2-Color Measuring Tapes

This open reel style has a tough, molded handle that is easy to grasp and the crank handle is reinforced with metal to provide years of rugged use. Double-throat rollers guide the blade return and prevent the tape from twisting. Shovel handle is ideal for rapid reeling. Printed on 2 sides — one side in ft./10ths/100ths — Yellow and second side in ft./inches/8ths — White. Tapes contain 42,000 fiberglass strands for greater tensile strength and superior accuracy when tension is applied. Tapes have proven dielectric strength of 200,000 V/M to assure your safety from electrical hazards.
